Strathcona Branch, G. W. HARRIOTT, Manager

## CITY COUNCIL

(From Wednesday's Daily)

The dove of peace hovered over the council table last evening, and harmony prevailed throughout the session. Little was said in answer to the question, and the adjournment was reached much earlier than usual.

Alderman McFarland and Halbert are still absent from the city hall, and their places were all in their places. The secretary-treasurer was an absentee, his place being taken by his son and assistant B. C. Crawford.

Among the original communications read was one from E. L. Chudleigh, district superintendent of the C. P. R., in answer to a letter from the Mayor suggesting that the company should not be allowed to charge tolls on the railroads which it owned. The letter read that the new railroads had to connect with the old railroads laid by the city on West Avenue. The reply was to the effect that the C. P. R. could not comply with the request.

A letter was read from the Mayor recommending that a license be imposed on the sale of tobacco, cigar, cigarette, etc., and that more stringent might be placed upon the sale of these articles. The cigarette evil was, he worship said, very prevalent in Strathcona, and it was time something was done about it.

This was done, nothing more was heard of it.

The communication was laid on the table for consideration later. However, when the session was adjourned, the Mayor met his adjournment. It was referred to the committee on relays to report.

The Winnipeg Hubber Co. wrote stating that the horse wagon for the fire brigade was shipped about the end of August.

The following accounts were referred to committee to be paid if found correct:

Canadian Washington Co. - \$100.00  
Canadian Electric Co. - \$100.00

Strathcona Cartage Co. - \$100.00  
Ferguson & Gibson - 575

Elliott Bros. - 23  
G. and J. Halbert - 21

Harraline American Packing Co. - 119.37

Jim Lee - 6.80

Strathcona Coal Co. - 818.30

Strathcona Laundry and Fisher - 625.00

C. P. R. - 50.71

Horsham Co. Ltd. - 7.86

Canadian Gas Co. - 43.25

McLean Oil Co. - 1.10

McLean - 139.50

The question of the payment of these amounts was referred to the committee to be paid if found correct.

The Mayor stated that the committee had not yet sent notices and had through his legal representative threatened an action against the city for the amount of his wages. A new treasurer had been temporarily appointed at a salary of \$500 per month.

Nothing was done in the matter, as the committee to which the matter had been referred did not in a timely manner report.

The City Engineer reported that he had notified Messrs. Peterson & Fallon

and Alderman Crawford moved and Alderman Rankin seconded that J. G. Tipton be appointed to the position.

Alderman Crawford pointed out that one application had been made for the position.

The mayor said that his choice was not confined to applicants.

It was moved and carried that a man who was not acceptable both to the council and to the government be taken into account.

Alderman McKenzie moved before the meeting that the committee should know what the new system was going to cost them, what salary they would have to pay, etc. He moved, in amendment, and Alderman Hall seconded, that the committee be taken into account.

The vote was a tie, but the mayor gave his casting vote in favor of the amendment.

Alderman Crawford and Rankin did not seem to accept this defeat in a spirit of resignation.

With a view to getting even they put through a motion recommending that the master of salary, etc., be given a raise of \$100 per month.

Alderman Hall moved that the master of salary be given a raise of \$100 per month.

The mayor said that at the next meeting he would introduce a bill.

Alderman Hall gave his opinion that at the next meeting he would introduce a bill.

There being no further business for discussion the council adjourned, and proceeded to sit as a court of revision.

### Underwriters Appoint Officers

Toronto, Aug. 21.—At the convention of the Underwriters Association the following officers were elected: Hon. G. M. McCusker, Toronto; president; H. C. Cox, Canada Life, Toronto; vice-president; J. R. Reid, Sun Life, Ottawa; G. P. McQueen, Great-West Life, Montreal; and Mr. J. N. B. MacKenzie, president.

John N. B. chairman of the executive, G. H. Simpson, North American Life, Montreal; treasurer; F. H. Heath, Federal Life, London; secretary, W. S. Milner, Toronto. Quebec was selected as the next place of meeting.

### Ticks From the Telegraph

(Special to the Chronicle)  
Toronto, Aug. 22.—The Rev. David Miller, formerly Presbyterian minister at Stoney Mountain, died here yesterday.

A gold strike is reported from Lake Abitibi. Dr. Grenier, of Paris, was present in Montreal yesterday.

The Maritime Board of Trade endorsed the All Red Route.

The Rev. Alexander McGtaggart was yesterday induced to visit the Bloor Ave. Presbyterian Church.

An endeavor is being made to have the Mikak Indian Reserve moved further away from the white settlement.

O. A. Toft has secured the contract for transmitting electric power to Winnipeg from Lac Du Bonnet.

Portage la Prairie has passed the cattle tax law whereby all children of twelve years and under must be off the streets by nine o'clock in the evening.

Ex-Mayor Barthélemy, of Louisville, Kentucky, has been indicted for having sold \$10,000 worth of lottery tickets.

The Trust and Savings Bank of Portland, Oregon, has closed its doors. Yesterday took place between Denver and Omaha yesterday, over a quarter of a million being stolen.

### Looks Like War

Toronto, Aug. 21.—At the convention of the Underwriters Association the following officers were elected: Hon. G. M. McCusker, Toronto; president; H. C. Cox, Canada Life, Toronto; vice-president; J. R. Reid, Sun Life, Ottawa; G. P. McQueen, Great-West Life, Montreal; and Mr. J. N. B. MacKenzie, president.

John N. B. chairman of the executive, G. H. Simpson, North American Life, Montreal; treasurer; F. H. Heath, Federal Life, London; secretary, W. S. Milner, Toronto. Quebec was selected as the next place of meeting.

There being no further business for discussion the council adjourned, and proceeded to sit as a court of revision.

### Well-Known Man Charged With Larceny

(Special to the Chronicle)  
Ottawa, Aug. 22.—The Rev. Mr. Davis of the Waterloo Flat Co., a well-known business man residing in Sandwith, West, has been charged by Gibson Williams, of Buffalo, with the larceny of \$100 which had been entrusted to him for the purpose of buying Detroit property.

He was taken into custody this morning when he was told of a report from Victoria, B.C., that the Japanese entering there had been contracted for before they left Japan or Honolulu.

Mr. Davis, of the Waterloo Flat Co., had broken the labor law. It is said

he can be deported, and that steps will be taken to have this done. Mr. Davis claims to have no official information of this.

### Doesn't Believe It

Ottawa, Aug. 21.—"I have no word from the Japanese at Victoria and hardly believe that," said Hon. H. N. Jackson, Minister of Justice, this morning when he was told of a report from Victoria, B.C., that the Japanese entering there had been contracted for before they left Japan or Honolulu.

Mr. Jackson said he had been told the Japanese had broken the labor law. It is said

he can be deported, and that steps will be taken to have this done. Mr. Davis claims to have no official information of this.

Come to Chorley's, Sunday get a free sample of Old Dutch Cleanser.

### Lacrosse

#### Strathcona Defeated at Calgary

Calgary, August 20.—Reform a large and enthusiastic crowd the home team succeeded in administering a defeat to the visiting handballers from Strathcona, the score being 11 to 10. The game was fast and fairly free from rough house work, the referee, Mr. Edmunds, of High River, watching closely for any infringement of the rules.

The first quarter was a dead heat.

The second was in favor of Calgary, and half time came with an even score of 5 to 5.

After the break the visitors got a couple of goals, while keeping their own clear, and in the last each team scored one.

Play started late and ended in moonlight.

The teams lined up as follows—

Strathcona	Goal	Calgary
Varrens	Point	Powell
Centre	Over Point	Powers
Leidlow	Defence Field	Dunn
Harrabin	Home Field	Reynolds
McKee	Outside Home	McLeod
Elliott	Inside Home	McDonald
Claridge		Rose
		Curries
		Moir
		Loring
		Dodd

### Looking Over the West

Brandon, Aug. 20.—C. P. Mallory right wing man for J. J. Hill, is here, having come from a tour of the West. He is a member of the Brandon, Manitoba, Jay, Letchford and Elko, the terminus of the Great Northern.

He says that the Elko branch is now

being built and other extensions in the West will be worked out early next spring.

In Calgary a tract of land north of the town and containing 100 acres will be auctioned off by Mr. McLean, and it is said here with the view of utilizing that site for terminal purposes, though he refused to be interviewed.

He expressed much satisfaction with the crop situation in Alberta and Saskatchewan. The mining interests of British Columbia had been most prosperous, and numerous extensions being made in many properties.

## WISHING.

I wish I was a little boy. With wings, curly tails, could fly like the birds. I used to be. By all the pretty girls.

They used to grab me from my mother. To see who would kiss me first. That's what I used to do.

I'm safe to go wherever I choose; I have no mother to bring me home. And I can't get you to grab me. "Oh, you lovely, darling thing!"

I did not used to like it. I liked to sit in the sun and eat. I would not only cry again, I would not struggle again.

—Hector Post.

No Delight—When, through debilitated digestive organs, poison finds its way into the body, the only safe alternative is to get the poison out as rapidly as possible. Delays may mean disaster. The sooner the poison is removed, the more valuable and effective will be the treatment. They never fall. They go to the moon to the trouble and work a permanent cure.

Not a Crime—It has been declared, officially, by a New York court that it is not a crime to hug a girl on the front steps.

Thousands of young people who live for just such things will be pleased to hear this news, although it will take some time for the word to spread. That the law of the land is not in any way being fractured.

Or if no refined young lady would like to be pulled up on the front steps around as witnesses, but in a place like New York, where the vice control act is in full force, such a public hugging should be done are not plentiful, she must choose between hugging with poison or being hauled up to the law.

We are inclined to think that the policeman who did the arresting was jealous of a woman officer whose heart in the right place, but who had been busy looking the other way.

## SUFFERING BABIES.

Mothers are sure relief for their suffering little ones in. But they are not the only ones who are gentle lassies that do not grip the little ones too hard. The gentle lassies of babies and young children. They are pliable, soft, and gentle in action, and unlike, softness, hugging should be done are not plentiful, they never do harm, and the mother has no need to be afraid of the analyst that they contain no drugs harmful to the health of the child.

Thousands of mothers give their little ones a gentle squeeze now and then when constipation, stomach trouble, or a similar ailment troubles the baby, or when the dreaded toothache comes. Mrs. Joe Morris, Philadelphia, says that she was a great sufferer from constipation, but after a few gentle squeezes, the trouble has disappeared."The babies are so gentle, and the mothers are so gentle, that they can't help but feel good."

Jack had trouble singing the cale, singing, "oh, yes, you, fa, sol, si, mi, etc." His mother said, "no, Jack," Jack in spite of this, sang on.

"I did say you, papa."

Orange Judd Farmer.

What Tuberulin is.

Tuberulin is the result of many experiments to obtain a curative anti-tuberculosis agent. It is the product of the growth of the tubercular organism in artificial cultures, or in the tissues of animals, when properly used. It will neither cure nor cause the disease to spread. It is not a specific, but it will insure a healthy life in any way, as it will not let the body down, and it will bring in more ready money and be a source of greater satisfaction than any other drug can be kept.
